

Minors

Results in DegreeWorks will be more accurate once the minor has been declared.

Minor Requirements

A minor is a component of a bachelor's degree that is in an area of study in addition to the student's major. A student can choose a minor that complements their major or use this as an opportunity to explore an additional area of interest. Students can declare a minor when submitting an admission application or by filling out the Declaration of Minor form (<https://www.uaf.edu/reg/forms.php#:~:text=Declaration%20of%20Minor>) through the Office of the Registrar (<https://www.uaf.edu/reg/forms.php>).

Minor Requirements

- A minor from UAF consists of a minimum of 15 credits, at least 3 of which must be earned at UAF, at the F100-level or above.
- Some minors may require department approval.
- Students must earn a C- or higher in each course required for the minor unless otherwise noted.
- Students must earn a cumulative GPA of at least 2.0 (C) in the minor.
- The same academic catalog year must be used for the bachelor's degree and minor.
- An Associate of Applied Science degree or certificate of at least 30 credits earned at any accredited college or university may be used to meet requirements for a minor in the Bachelor of Arts degree.
- Students who hold a bachelor's degree from a regionally accredited institution are not required to complete the minor complex.
- Students must satisfactorily complete the requirements for a minor before the bachelor's degree can be awarded.

Restrictions on Minors

- Students may not major and minor in a program of study with the same name, such as Mathematics major + Mathematics minor; English major + English minor. However, there may be allowable major/minor combinations within the same department, such as Art major + Art History minor; English major + Creative Writing minor.
- Programs may choose to prohibit specific major/minor combinations. Any such exclusions are noted in the program descriptions throughout this catalog.
- Students may only earn a minor while simultaneously completing the requirements for a baccalaureate degree. A minor may not be awarded on its own.

The Bachelor of Arts degree requires a minor. A minor is optional for the following degrees unless otherwise noted by the major:

- Bachelor of Applied Arts and Sciences
- Bachelor of Applied Management
- Bachelor of Business Administration
- Bachelor of Fine Arts
- Bachelor of Music
- Bachelor of Science
- Bachelor of Security and Emergency Management

Students may use the What-If (https://www.uaf.edu/reg/files/grad/DegreeWorks-What_If.pdf) feature in DegreeWorks, accessed through UAOnline (<https://www.alaska.edu/uaonline/>), to review minor requirements and how credits already earned may apply to the requirements.
