**PROCESS TECHNOLOGY (PRT)**

**PRT F101  Introduction to Process Technology**  
3 Credits  
Offered As Demand Warrants  
Introduction to process operations in industry. Non-mathematical overview of general information, processes, procedures and equipment a process operator would be expected to know and use.  
**Lecture + Lab + Other: 3 + 0 + 0**

**PRT F110  Introduction to Occupational Safety, Health and Environmental Awareness**  
3 Credits  
Offered As Demand Warrants  
Overview of the field of safety, health and environment within the process industry. Covers plant hazards, safety, and environmental systems and equipment, and applicable government regulations and industry standards.  
**Lecture + Lab + Other: 3 + 0 + 0**

**PRT F117  Drafting for Technicians**  
3 Credits  
Offered As Demand Warrants  
Skills and techniques needed to produce process piping and instrumentation drawings.  
**Lecture + Lab + Other: 2 + 2 + 0**

**PRT F120  Water Quality Management for Process Industries**  
4 Credits  
Offered As Demand Warrants  
Overview of the chemistry, biology, hydraulics and hydrology related to water management in industries. Water distribution systems, water processing, operation of water works, wastewater processing, advanced wastewater treatment and water reuse.  
**Lecture + Lab + Other: 3 + 3 + 0**

**PRT F130  Process Technology I: Equipment**  
4 Credits  
Offered As Demand Warrants  
Selected process equipment including rotating machinery and process units. Emphasis on equipment components, construction, preventative maintenance and safety. Includes hands-on experience.  
**Prerequisites: PRT F101.**  
**Lecture + Lab + Other: 3 + 2 + 0**

**PRT F135  Stationary Equipment**  
4 Credits  
Offered As Demand Warrants  
A detailed hands-on course covering stationary equipment used in a variety of process industries. Piping, valves, vessels, tanks, exchangers, heaters, boilers, mineral processing, mill equipment and distillation equipment are covered.  
**Lecture + Lab + Other: 3 + 2 + 0**

**PRT F140  Industrial Process Instrumentation I**  
3 Credits  
Offered As Demand Warrants  
Physics of pressure, temperature, level and flow measurement; mechanical and electrical aspects of instruments used to control dynamics of processes. Dynamics of automatic control including proportional control, automatic reset, derivative action and integral timing.  
**Prerequisites: MATH F105.**  
**Lecture + Lab + Other: 2 + 2 + 0**
PRT F248  valve maintenance and instrumentation
3 credits
Offered As Demand Warrants
Specific advanced subjects of industrial process valve maintenance and instrumentation. Includes calibration, configuration, troubleshooting, and use of valves with instrumentation. Concepts of contemporary plant control systems, commonly used industrial process measurement, control communication protocols and topologies related to valve control will be discussed. Covers maintenance and operation of gate, globe, ball, plug, check and special-purpose valves. Details of actuators and various accessories related to valve maintenance and control will be explained and related to valve selection based on application.
Recommended: PRT F130.
Lecture + Lab + Other: 3 + 1 + 0

PRT F250  process troubleshooting
3 credits
Offered As Demand Warrants
Troubleshooting process operations and problems. Using indicators, variables and controllers along with a formalized process of troubleshooting. Troubleshooting examples will reflect current needs of industry.
Prerequisites: PRT F230.
Lecture + Lab + Other: 3 + 0 + 0

PRT F255  quality concepts for the process industry
1 credit
Introduction to current quality concepts applied to role of process technician. Includes quality concepts with respect to the client and the role of statistical processes used by the operator in achieving quality.
Lecture + Lab + Other: 1 + 0 + 0

PRT F275  process technology internship
1-9 credits
Offered As Demand Warrants
Working experience in and exposure to various stages and settings within the process industry. Endorsed and promoted by Alaska Process Industry Careers Consortium, the internship is an intensive exposure to the various duties and responsibilities of the process operator in Alaska. A maximum of 9 credits may be earned.
Prerequisites: Permission of instructor.
Recommended: PRT F101, PRT F110, PRT F140.
Lecture + Lab + Other: 0 + 5-45 + 0
