BUSINESS CONTINUITY

Graduate Certificate

The graduate certificate in business continuity is an addendum to the 2019-2020 UAF general catalog.
A new graduate certificate was approved by the chancellor in October 2019. This page includes the specifics of this new program. The degree will be effective summer 2020.

The business continuity graduate certificate provides students an in-depth overview of those processes required to build resilience and provide for disaster recovery within both public and private entities. Planning and preparing for the adverse effects of a major crisis brought on by natural disasters, cyber threats and even common emergencies are key to the survival of an organization post-event. Business continuity is an important component in having a successful business, and as such, many organizations are adapting their employee's roles to include continuity components. This certificate will help students understand those components, teach them how to develop a plan, and cover best practices to survive and thrive despite a crisis or disaster. This knowledge, in turn, better prepares employees and businesses for any business disruption that may occur.

Minimum Requirements for Business Continuity Graduate Certificate
Degree: 12 credits

School of Management
Department of Homeland Security and Emergency Management (http://www.uaf.edu/som/degrees/graduate/msdm/)
