Graduate Certificate

The graduate certificate in cybersecurity management is an addendum to the 2019-2020 UAF general catalog. A new graduate certificate was approved by the chancellor in November 2019. This page includes the specifics of this new program. The degree will be effective fall 2020.

The cybersecurity management graduate certificate is designed for the student who desires an in-depth overview of the important topics in providing for the cybersecurity-oriented aspects of managing cyber-related operations. The certificate provides relevant and cutting-edge education specific to the needs of individuals and their associated organizations in providing the technical capability to prevent, plan for and recover from technological incidents. Cybersecurity, a very dynamic field, requires lifelong learning. This certificate program serves as continuing professional education (CPE) for many professional certifications today. Recipients of the cybersecurity management graduate certificate are better prepared for the challenges of the cybersecurity workforce today and the future.
