The secondary postbaccalaureate program is a selective teacher education program. Multiple measures are used to assess the personal characteristics, communication skills and qualifications of the candidates preparing to teach.

UPON ACCEPTANCE TO THE PROGRAM
The School of Education has a systematic procedure for monitoring the progress of education students from admission through completion of their professional education program to determine if they should continue the program, be advanced to the secondary teaching internship and eventually be recommended for a teaching license. In assessing candidate progress in knowledge, skills and disposition, faculty will review grades, observations, faculty recommendations, demonstrated academic competence and recommendations from the appropriate school professionals.
